**Title**

Classification System for Maxillofacial Prosthetics- A Maxillofacial Prosthodontic Diagnostic Index

**Abstract**

The American College of Prosthodontists in conjunction with the American Academy of Maxillofacial Prosthetics has developed a Prosthodontic Diagnostic Index for patients requiring maxillofacial prosthetic care. Four categories are defined for each of the twelve subcategories described in the American College of Prosthodontists' Parameters of Care document. As with the other American College of Prosthodontists Prosthodontic Diagnostic Indices, the system is intended to aid in the complete diagnosis of patients and to help create a framework for developing a comprehensive treatment plan. The Maxillofacial Prosthodontic Index' purpose is to help the practitioner improve patient care and, professional communication, and to, act as a screening tool for educational institutions and standardize criteria for outcome assessments.
